

The Nexus ultra soft silicon fan mounts are designed to eliminate noise generated by the vibration of PC cooling fans.

**Stop  
vibration**

A case fan in contact with the PC housing can cause vibration during operation. This vibration can cause very annoying sounds and noises. By replacing the fan mounting screws with these ultra soft silicon fan mounts you effectively end this vibration.

**Ultra Soft  
silicon**

These fan mounts are made from the best possible silicon to guarantee effectiveness and durability. The ultra soft material is ultra effective and easy to install.

**Universal  
fitting**

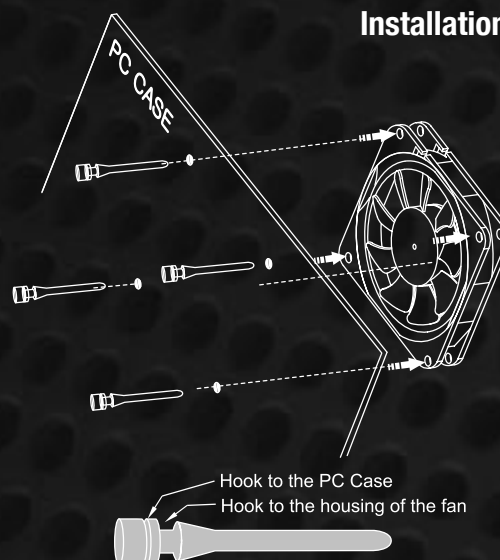

These silicon fan mounts have a universal design. They are designed to fit the vast majority of fans and PC cases.

Quick, effective and easy to fit!

**4 units in 1 package**

### Installation

**CASE FAN VIBRATION ABSORBERS**  
**SFM-1000 SILICON FAN MOUNTS**
